#### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to anticipate or render obvious the following recited features: an enhanced slice predictor that chooses at least one but fewer than the  $n/2$  of the  $n/2$  possible decoding states based upon an output of the decoder and that provides the chosen state or states as the enhanced slice prediction as recited in claim 24. An outer decoder that decodes only the second data and an enhanced slice predictor that provides prediction output based upon the first data when the second data available and based upon the decoded second data when the second data available as recited in claims 33 and 43.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Conclusion***

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
